Chapter 1: How You Approach Life and How You Appear To Others

Libra Rising:

You are a natural diplomat, reasonable, tolerant, fair, always willing to listen to varying viewpoints, and ready to see the other side of an issue. Even if you strongly disagree with someone, you will try to find points of similarity and agreement rather than emphasizing the differences. You often avoid taking an extreme or one-sided stance on anything. You have a strong desire for harmonious and pleasant relationships, and express a spirit of cooperation, compromise, friendship, and fairness. You very much want to be liked and because of your need for approval and acceptance, you are easily influenced by others' opinions, especially when young. You so much want to please that often you will suppress your own intense or unpleasant feelings in order not to offend others. Sometimes your politeness is interpreted as phoniness or wishy-washiness.

Your need to create harmony extends to your physical environment and personal appearance as well. You appreciate beauty and have a natural sense of balance, symmetry, and proportion. You do everything in good taste, with a sense of style and art. From your home furnishings to your choice of clothing, everything must be aesthetically appealing, not simply functional or utilitarian.

You also feel that relationships are an art, one that especially interests you and one that you are usually quite skilled at, for you possess tact and acute awareness of other people. Marriage is very significant to you and finding the right person to share your life with is extremely important. Being part of a close couple seems natural to you - you are not an independent loner. Having a partner increases your self-confidence. You do have a tendency, however, to become overly dependent on your partner and perhaps not to develop a clearly defined identity outside of the relationship. Finding the balance between being yourself and blending and uniting with another is a challenge for you.

Others see you as an agreeable, smooth, harmonious, and "nice" person. Though there may be much more to you, this is the sort of face you show to the world. You possess personal charm and an understated, noncombative manner. Your motto could be "you catch more flies with honey than with vinegar" for you usually take a friendly, cooperative approach rather than a strong, forceful, I'm-going-to-conquer-the-world attitude.

Chapter 2: The Inner You: Your Real Motivation

Sun in Gemini:

You are, in many ways, an eternal child. Your mind is bright, alert, curious, flexible, playful, and always eager for new experiences - and your attention span is often quite brief. You grasp ideas quickly and once your initial curiosity has been satisfied, you want to go on to something else. You crave frequent change, variety, meeting new situations and people.

It may be hard for you to decide just where your talents and true vocation lies, for you have a multitude of interests and are loathe to limit yourself by concentrating on just one. You are easily distracted by all of the other fascinating possibilities. Your curiosity and restlessness propel you into many different experiences in life, and you are willing to taste or try anything once. Doing the same thing over and over again, even if it is something you do well, is real drudgery for you.

You live in your head a great deal - reading, observing, thinking, spinning ideas around - and you

need mental stimulation every bit as much as you need food and drink. In fact, if you had to choose between a good book or movie and a good lunch, you would very likely choose the former. You have a creative mind and often live by your wits.

You are also a very social creature, with a strong need to communicate and to interact with people. You enjoy using and playing with words and have a real flair for getting your ideas across in a clever, interesting, articulate manner. Writing or speaking are areas you have talent for.

You also have a rather light and mischievous sense of humor, and often do not take anything too seriously. Though you crave emotional involvement, it is hard for you to achieve it, for you are frequently unwilling to commit yourself to anything, to take responsibility, or to limit your personal freedom and mobility.

Your happiness lies in using your creativity and your language skills to communicate something meaningful, to teach, inspire, or bring people together. You have an unbiased mind and can usually offer a fresh, clear, uncluttered perspective. Your faults are your lack of constancy and persistence, and your tendency to overlook or ignore deep emotional issues and other people's feelings.

Sun in 8th house:

You crave intense experiences and are attracted to aspects of life that are strange, unfathomable, or taboo. You may hide your interests or inclinations, except from those who know you very intimately. You are rarely content with yourself and your life, and you have an inner urge to be continually going farther or deeper than you ever have before. You also have a strong interest in social power and the role that money and economics play in people's lives.

Sun Sextile Jupiter:

You have big aspirations but do not struggle or labor to achieve them. Your self-confidence and inner harmony attract success and benefits to you in an almost magical way. Your optimism and cheerful generosity also win you many allies and successes in life.

Sun Sextile Saturn:

Realistic and practical, you set goals for yourself that are modest enough for you to actually achieve. You are able to tackle long, difficult projects and see them through, for you possess self-discipline, concentration, and perseverance. You also have a strong sense of responsibility and are very conscientious in fulfilling your obligations. Often you do things because you feel it is expected of you.

Chapter 3: Mental Interests and Abilities

Mercury in Cancer:

You are highly interested in inner, subjective, and personal issues, and your thinking is based more on feelings, intuition, personal experiences, and prejudices rather than reason or logic. Intellectual abilities and accomplishments without heart or soul mean little to you. You are empathic and would be an excellent counselor, for you are a sensitive listener and deeply interested in a person's feelings and inner life. In addition to psychology, you are drawn to education, art, poetry, music, or mythology. You are not especially confident about speaking in public, but will open up and share your thoughts in small, intimate groups. You enjoy keeping a diary or personal journal and reading the chronicles of others' lives and personal development.

Mercury in 9th house:

You have an unquenchable thirst for knowledge and wisdom and for an ever broadening understanding of life. You are the perpetual student and will be involved in higher education, philosophy, or religion. Law, broadcasting, publishing, or the field of communications are also areas that interest you. World travel and studying other cultures are also strong urges of yours.

Mercury Conjunct Mars:

You have a sharp mind and a sharp tongue as well, and love a vigorous discussion or debate. You express your thoughts in a clear, decisive, convincing style. You dislike vagueness and fuzzy thinking, and are quick to point out the discrepancies in another's argument. At times you are verbally aggressive and abrasive to others, and you tend to overstate your case or offend people by your unadorned frankness. You can be an effective spokesperson, lawyer, or salesman. You have an aptitude for writing as well, particularly criticism or satire. You enjoy mental challenges and mental work.

Moon Conjunct Mercury:

You are a natural psychologist or counselor, interested in the inner motivations, feelings, personal life, and problems of others. You are a sympathetic listener and you also love to discuss (endlessly!) your own experiences and feelings. You tend to be very personal and subjective in your point of view. You have a talent for getting others to talk about their lives, dreams, desires, and other things that are personally meaningful to them. You could be an excellent interviewer, reporter, or biographer. Idle talk and gossip are your vices.

The study of the past - history, archeology, genealogy, etc. - is of great interest to you. Psychology, symbolism, mythology, and languages are also areas that you are drawn to.

Chapter 4: Emotions: Moods, Feelings, Romance

Moon in Gemini:

You do not appear to be an intensely emotional or sentimental person, and you are often unaware of your own or other people's deeper feelings and emotional needs. Tears and tantrums bewilder you and make you very uncomfortable. You would rather settle differences by talking things out reasonably and rationally, but you tend to ignore or poke fun at any attempt to probe your own or others' inner depths.

You avoid heavy, demanding emotional involvements and are wary of making personal commitments.

You need plenty of mental stimulation and you feel close to people with whom you can share thoughts and mental interests. Conversation is very important to you. The strong, silent type of partner is not for you.

Moon in 9th house:

You may have done extensive traveling in your early years, or in some way had a background which enables you to understand and identify with many different types of people or cultures.

You have a craving for things which are far away and foreign or for things you have never experienced before. You want to completely immerse yourself in the feelings and tastes of a new place, rather than simply have facts or an intellectual appreciation. Emotionally, too, you are restless and something of a wanderer.

Moon Conjunct Pluto:

Your emotions are very intense, but often hidden. Like a volcano, one minute you seem quite peaceful and the next you are exploding with great force and unexpected fury. The intensity of your reactions often surprises even you. You have tremendous zeal and tend to be an emotional fanatic about things you care about. Your feelings and desires can be so compelling that you do things against your better judgment and reason. You can also be very manipulative, in a subtle way. Your personal relationships are deeply emotional, passionate, and often stormy and painful as well.

Venus in Cancer:

Sensitive and sentimental, you are deeply attached to your family, old friends, familiar places, and the past. You are romantic and tender in love, and the remembrance of birthdays, anniversaries, family rituals, and other days of personal significance is very important to you. You seek caring, emotional support, and security in love. You like to be needed, to cherish and protect your loved ones, and you are somewhat possessive of them.

Venus in 9th house:

You are attracted to foreigners, exotic places, traveling, and to people who can expand your horizons, teach you something, or show you places and worlds you have never experienced before. Sharing a philosophy or ideal with your love partner is important to you.

Also, you feel a love and kinship for people everywhere, not only with your own family, nationality, or group. Finding similarities and making links between people from differing backgrounds or with different perspectives is a gift of yours.

Venus Conjunct Neptune:

You are very romantic, idealistic, and imaginative about love. You yearn for your "true love" or "soul mate" and may become disappointed in others who never quite live up to your dream image of the perfect lover. You frequently fantasize about love and often fall in love with someone you can only love from afar. You may avoid making a definite personal commitment. Gentle and sensitive, you do not like to be approached in a very direct or aggressive manner. You are attracted to those with artistic or mystical inclinations.

Venus Opposition Uranus:

Your love feelings are easily aroused and your romantic relationships begin with a sudden electric attraction, but they often end abruptly, and you may be in and out of love frequently - especially in your younger years. You crave emotional excitement and need to feel spontaneous and free, so you may avoid making firm personal commitments. Unusual or nontraditional forms of love and relationships appeal to you, and you are attracted to unique, creative, or unstable people.

Chapter 5: Drive and Ambition: How You Achieve Your Goals

Mars in Cancer:

You avoid direct confrontation as much as possible and are uncomfortable with aggressiveness, competition, and personal power. Your ego drive is not very strong and you are not especially ambitious or eager to push your way to the top. You may feel inadequate in situations that call for strong, forceful action. The only instance in which you will really fight is when you feel your loved ones, or something dear to you, is being harmed, for then you are a fierce defender. You have a very strong protective side. You act on impulse and instinct and may lash out at anyone you perceive as threatening to your home or family. However, you will rarely initiate a confrontation. Your goals also tend to be very personal and centered around family closeness and inner satisfaction rather than worldly achievement.

You are sensitive to stress and do not handle a high-pressured, competitive atmosphere very well. You are very touchy, irritable, and difficult to live with when there are many demands or tensions at work. Your energy level is inconstant and is very much dependent upon the emotional harmony (or lack of it) in your home. A supportive partner is of great benefit to you in helping you achieve your goals and desires.

Mars in 9th house:

You have passionate convictions and will fight for them when challenged. You are willing to dedicate a great deal of your energy and force to an important cause, and you'll act decisively on your beliefs, rather than simply espousing them.

Sometimes you get so involved and identified with your ideas that you cannot really be receptive to anyone who opposes you philosophically.

Mars Square Saturn:

You work hard and patiently to achieve your objectives, persevering and continuing on in spite of difficulties and discouragement. Concentrating on a single, clearly defined goal, you are able to accomplish much, but you often feel that the way is long and arduous, and that you must struggle on alone, that it's all on your shoulders.

You are capable of great self-control and self-denial and can be a hard task master, expecting far too much of yourself. You also tend to hold yourself back, to doubt your own power and ability. You feel that you meet with great resistance whenever you try to assert yourself or take initiative. Anger and frustration can be big problems for you, especially when you try to work with other people or depend too much on others for support. You work best in solitude.

Chapter 6: Other Influences

Jupiter in Leo:

You cannot tolerate smallness or pettiness in any form, and you have a tendency to exaggerate. Also, you have a wonderful sense of drama! You must live boldly and heroically. Otherwise you feel you are simply existing and wasting your talents.

The desire for personal recognition - or even Fame - and a need to do something you feel really proud of, motivate you strongly. You have an unusual capacity for fun and playfulness also.

Jupiter in 10th house:

Your career or contribution to the world at large is likely to touch many people's lives in a very positive, helpful way. You aim high and have an innate confidence and trust both in your own abilities and in life in general, which enables you to go far. You want to do something BIG with your life, and you attract the support you need to do so, for your aims are not solely for your own personal benefit. You want to give something back to the world, or to improve others' lives as well as your own.

Jupiter Trine Saturn:

You have a good balance between idealism, optimism, and vision for the future on one hand and a realistic sense of what can actually be achieved on the other hand. Your judgment and business sense are usually quite good. You possess patience and the ability to accept limitation and frustration on the way to your goals.

Older, more experienced individuals or mentors are likely to play a significant and beneficial role in your life.

Saturn in Aries:

You have difficulty asserting your will and desires directly and openly. You also may suppress your anger and aggressiveness. Developing self-confidence, courage, and faith in yourself are important tasks for you.

Saturn in 6th house:

You take both your work and your health very seriously, but you may demand so much of yourself at work that you compromise your health. You can become a workaholic, not so much because you have lofty ambitions, but because you never feel like you've done enough. You are overly responsible or overly conscientious at work, so much so that you may not enjoy it at all.

You can also get overly involved in self-improvement or your health, and you tend to be a bit of a hypochondriac.

Uranus in Capricorn:

You are part of a 7 year group of people who are active in reforming businesses, governments, and other large social structures. A great deal of streamlining and reorganizing takes place, most of which will help to improve the well-being of people, the ultimate goal of these reforms. Your generation will promote various reforms that will vary in different nations. For example, some will increase socialization of public services and others will put more services in the hands of private industry. In either case, your generation strives for greater efficiency and a great deal of waste is eliminated from industry and government.

Uranus in 3rd house:

You grasp new concepts quickly and are interested in new technologies, discoveries, and innovations. Unconventional ideas and creative, original approaches to problems are very attractive to you also. You are easily bored and may have trouble concentrating on one idea or task at a time. You have an inventive mind.

Uranus Opposition Neptune:

Those born in your generation can be highly inspired, but also confused or upset by anything irrational or paranormal. The old no longer suffices and the new is compelling but certainly not easy to integrate. Your age group has a great fascination with new techniques and innovations which seem almost miraculous.

Neptune in Cancer:

You are part of a 14 year group of people that are highly intuitive, emotional, and sentimental. Your generation approaches religion in an emotional and devotional manner, and is less concerned with specific dogma and doctrine than other generations. You are an emotional and sentimental group that clings to your memories of precious and special moments.

Neptune in 9th house:

You love to dream, fantasize, and speculate. You are willing to entertain the most far fetched ideas and philosophies, since to you anything is possible.

Anything exotic, alien, or faraway holds a great attraction for you. You can have very otherworldly beliefs which are quite impractical and irrelevant to your everyday existence.

Pluto in Gemini:

You are part of a 30 year group of people who have a lighthearted and carefree attitude towards life. Your subconscious and emotional needs are not as great and not as difficult as other generations. You approach life in a more airy and easygoing manner. You know how to have a good time and do not take life as seriously as other generations do.

You are a curious and inquisitive bunch and love puzzles and word games. Some members of your generation will follow these interests with great depth, and contribute spectacular breakthroughs in the areas of languages, mathematics and logic.

These breakthroughs also highlight the importance of educational skills and the benefits they can bring, and your generation is highly motivated to improve the educational standards and academic skills of people. A tremendous push is given to ensure literacy of all people, to develop adequate verbal and mathematical skills, and to slow down the dropout rate from high schools. Needless to say, these are noble goals that all generations support, but your generation puts a much greater emphasis on these issues than others age groups do.

The generation following yours is far more emotional and personally sensitive than your group. Consequently, many of you are oblivious to the emotional support and tender nurturing that your children (who are likely to be members of this next generation) require.

Pluto in 8th house:

You are a person of great depth and have a deep interest in the hidden or darker side of life. Issues and experiences others shun, you are drawn to and compelled to examine. The use and misuse of personal, social, and political power intrigues you. Death is also an area you are fascinated with and may explore in depth. You may have many experiences in which you are forced to burn your bridges and start over again.
